WOODEN KITCHEN ACCESSORIES

CATALOG 2009

About Us

Galdrew company was established in 1999 as a continuation of family traditions related to production of wooden products. The company produced and sold small kitchen utensils which were manufactured for several years in Żurowa and vicinities by small family craftsmen plants. Throughout several years of its activity, the company has specialized in marking wooden products (burning out, tampography), which enabled entering the market of advertising products. The give-aways that we produce find many buyers among the companies in food industry. Some large firms and advertising agencies constantly use our spatulas, spoons, etc. in their advertising campaigns.

Part of our production is successfully sold in the countries of European Union.

All our products are manufactured in Poland, made of the highest-quality beech timber from the woods of south-east Poland, and are accompanied by health quality certificate issued by the National Institute of Hygiene (HŻ/C/04472/04).

We aim to develop our company and broaden the cluster of our Customers.

In catalog You can get acquainted with a wide range of wooden kitchen utensils from our manufacturing offer. The assortment of our products is regularly extended with new designs and the offer will be updated whenever necessary.

To make browsing our offer easier we divided the products into several categories:

WOODEN KITCHEN ACCESSORIES AS ADVERTISING GADGETS ??? WHY NOT !!!

Our kitchen utensils can be interesting and useful advertising gadgets. The products offered are commonly used in almost every kitchen, so such gadget will serve its purpose for a long time.

We have significant experience in branding wooden products using the following methods:

- burning - "hot stamp" - on flat products such as spatulas, knives (see more)
- pad printing - 1colour - on all products (see more)

We recommend gadgets offering the possibility of burning the logo.

Current offer of promotional gadgets You can see on our website in the category "Recommended as advertising gadgets"
